

Directions from PVR Puerto Vallarta Airport to Guayabitos

There are taxis at the airport. All international brand rental cars are available at the airport. You can make a reservation through Orbitz or Kayak before departing for Mexico.

Go left (north) from the Airport. When you cross the River Rio de Ameca, you are entering the State of Nayarit, leaving the State of Jalisco. At this point, turn your clocks BACK one hour! You just left the Central Time Zone and are now on Mountain Time. Important to remember when you catch your plane at PVR which is on Central Time. You are on Federal Highway #200, and it is a one hour drive from the Airport to Guayabitos-LaPenita. When you get to Rincon de Guayabitos at approximately milepost 95 km – look for the water tower, turn left and the Oficina de Turismo (Tourist Office) is right there. A very short block and turn left again. You will see street vendors selling beach articles, primarily. When you see the Church on the left, take the first turn to the right (towards the beach) after the Church. Another short block at end of street and on the left is La Vita Condos!

Another alternative is the bus (autobus). The bus station is about a mile north of the Airport – take a taxi to the bus terminal. Buses leave about every hour and stop in La Penita, the town about a mile from Guayabitos. When you get there, take a taxi to Guayabitos and LaVita Condos.

It is easy to exchange dollars to pesos at the Airport near the baggage claim area. You can either use the exchange counter or use the ATM machine.
